ShariaPortfolio Canada offers wealth management solutions that are aligned with your values. To help clients achieve their life goals, we take a long-term perspective and a highly disciplined approach to wealth management, providing a full range of halal investment solutions.

Canada's first and only licensed Portfolio Management firm fully dedicated to Sharia-compliant investing.

HOW DOES SHARIA-COMPLIANT INVESTING WORK?

ShariaPortfolio manages all portfolios in accordance with the rules determined by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI). Our investment choices are Sharia compliant, or halal, which means they are permissible under Islamic guidelines.

To be Sharia compliant, companies and investments must pass several screens for permissible asset classes and business activities. Stocks and Islamic ETFs are eligible for Sharia compliance consideration but preferred shares and interest-paying securities are not. A business activities screen excludes companies that derive more than five percent of their total income from non-compliant income sources.
